

I feel the automated sales calls are just terrable as they will not stop untill you answer.

When you do answer, just to stop them ,they put you on hold till a salesrep can get to you & start there sales pitch & then they will hardly stop talking so you can request, to be put on a no call list.

Being automated there is just too many too often & a lot of them come at dinner time.

I am also getting more and more prerecorded telemarketing calls.

I get telemarketer hang-up calls nearly every day There should be no exemptions to a easy no fee national do-not-call list, even for tax-exempt callers & large fines if not complied with to help ensure compliance.
